Memory Study — Participant Form

You are invited to take part in a short memory study conducted for a PSY101 class research project. Your participation is completely voluntary, and you may withdraw at any point without any consequence. The task takes about 20–25 minutes. There is no physical or significant psychological risk involved beyond the normal, mild effort of a short memory task.

Your responses will be used for academic analysis only. Individual results will not be shared outside the research team. By signing below, you agree to take part in this study.
